

“In the Footsteps of Gods and Generals”

5 Days/4 Nights

Led by: **Dennis Frye**

Associate Producer of Gods & Generals

As one review of the film stated: “While *Gettysburg* was an intelligent, well-made epic, *Gods and Generals* is an entirely different order of movie: perhaps the finest Civil War movie ever made -- including *Gone With The Wind* -- and one of the most inspiring movies you'll ever see. Vast in scale, brilliant in its detail, *Gods and Generals* also offers the most balanced view yet of what the conflict was really about. In choosing to make Stonewall Jackson its tragic hero, it brings into painfully clear focus why the war had to be fought. *Gods and Generals*

is not only a great movie – it is also what America is, brought thrillingly to life.

This tour gives you the opportunity to explore the battlefields and towns featured in this epic film and more! Discover the human side behind the Civil War—feel the past and let it touch you.
